

## How Would You Like To Magically Reduce Your 30 Year Home Loan To 23 Years, Simply By Installing Solar Panels On Your Roof?

If you apply your monthly savings from your “home loan financed solar system” to your loan balance, you can eliminate years off of your mortgage. Really.

Just like the principle of adding one extra payment a year to your mortgage loan can eliminate 6 years of the life of the loan, applying your solar savings to home loan accelerates it even more.

Contact your mortgage professional to learn more how financing your solar system with a home loan can turn your savings into big rewards.

### Example Loan

\$300k 30yr 4% Home Loan  
+\$300 Monthly Electric Bill

Solar Savings  
Applied To Home  
Loan Balance

Year	
1	\$2,196
2	\$2,376
3	\$2,565
4	\$2,763
5	\$2,972
6	\$3,191
7	\$3,420
8	\$3,662
9	\$3,915
10	\$4,181
11	\$4,460
12	\$4,753
13	\$5,061
14	\$5,384
15	\$5,724

\$1,431 Home Loan Payment  
+ \$117 Solar Loan Payment  
\$30,000 Solar Cost with  
Federal Tax Credit Applied.
